Determination of Financial Assistance Eligibility – Generally, Eligible persons are eligible for Financial Assistance, using a sliding scale, when their Family Income is at or below 300% of the Federal Government’s Federal Poverty Guidelines(FPG)[<https://federalregister.gov/a/2014-01422>]; Eligibility for Financial Assistance, means that Eligible Persons will have their care fully covered or partially, and they will not be billed more than “Amounts Generally Billed”(AGB) to insured persons(AGB, as defined by IRS Section 501(r)). Financial Assistance levels based solely on Family income and FPG, are:

Family Income at 0 to 120% of FPG - Eligible for 100% discount

Family Income at 121% to 300% of FPG - Partial Financial Assistance – AGB is maximum billable to patient – Presently this discount is 30%.

Note: Other criteria beyond FPG are also considered (i.e., availability of cash or other assets that may be converted to cash, and excess monthly income relative to monthly household expenses), which may result in exceptions to the preceding. If no Family income is reported, information will be required to show how daily expenses are covered. The DHS Financial Assistance Committee reviews submitted applications which are complete, and then determines Financial Assistance Eligibility in accordance with the DHS Financial Assistance Policy. Any applications that are incomplete will not be considered, but applicants will be notified and given an opportunity to submit the required documentation/information.
